## Kindergarten Immunization Rates in South Dakota

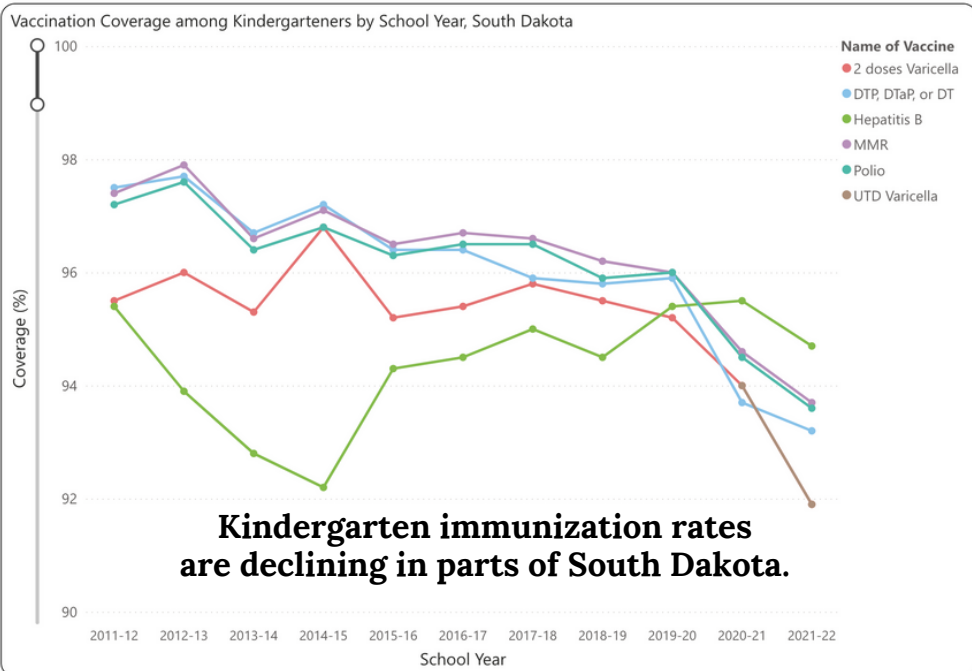

District 12

High immunization rates protect South Dakota's children from catching contagious diseases that can be prevented with routine vaccinations. For example, **95% of the community must be immunized** to prevent an outbreak of measles. When rates drop below this safe threshold, we're all at risk.

### 2022-23 Statewide MMR Immunization Average

**93%**

### Kindergarten Immunization Rates for Measles, Mumps, Rubella

| County    | 2020-21 | 2021-22    | 2022-23    |
|-----------|---------|------------|------------|
| Lincoln   | 95%     | 97%        | 96%        |
| Minnehaha | 95%     | <b>94%</b> | <b>92%</b> |

#### Key

- = Protected
- = At risk for outbreak
