## Kindergarten Immunization Rates in South Dakota

High immunization rates protect South Dakota's children from catching contagious diseases that can be prevented with routine vaccinations. For example, **95% of the community must be immunized** to prevent an outbreak of measles. When rates drop below this safe threshold, we're all at risk.

District 19

### 2022-23 Statewide MMR Immunization Average

**93%**

Key

- = Protected
- = At risk for outbreak
