## Kindergarten Immunization Rates in South Dakota

2022-23  
Statewide  
MMR  
Immunization  
Average: **93%**

High immunization rates protect South Dakota's children from catching contagious diseases that can be prevented with routine vaccinations. For example, **95% of the community must be immunized** to prevent an outbreak of measles. When rates drop below this safe threshold, we're all at risk.
