

Legislative District 26A

Kindergarten Immunization Rates in South Dakota

High immunization rates protect South Dakota's children from catching contagious diseases that can be prevented with routine vaccinations. For example, **95% of the community must be immunized** to prevent an outbreak of measles. When rates drop below this safe threshold, we're all at risk.

District 26A

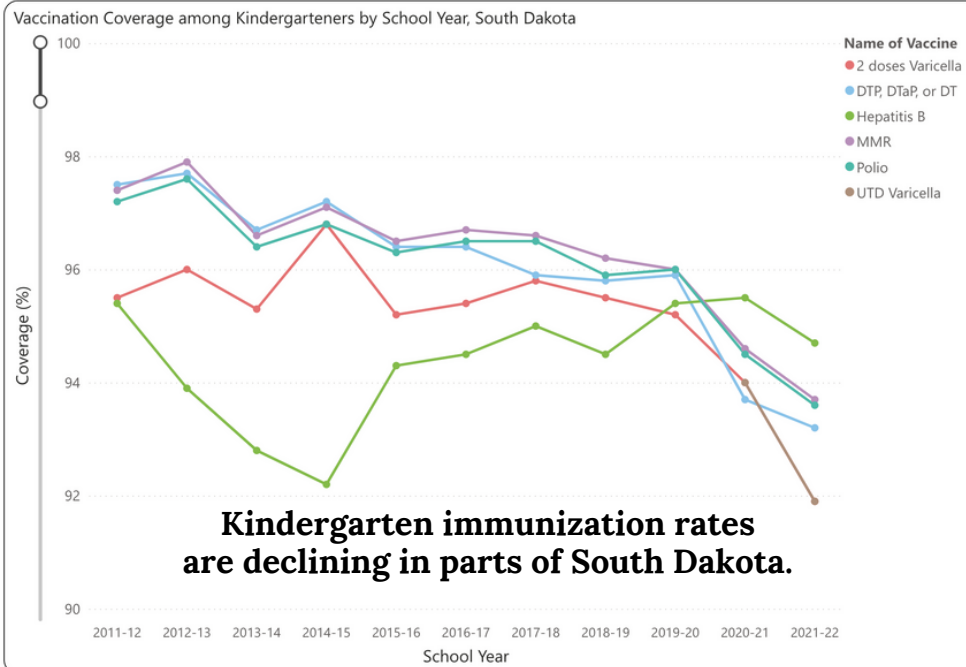

2022-23 Statewide MMR Immunization Average

93%

Kindergarten Immunization Rates for Measles, Mumps, Rubella

County	2020-21	2021-22	2022-23
Jones	100%	67%	93%
Mellette	97%	100%	95%
Todd	91%	91%	90%
