

Legislative District 28 (28A, 28B)

Kindergarten Immunization Rates in South Dakota

High immunization rates protect South Dakota's children from catching contagious diseases that can be prevented with routine vaccinations. For example, **95% of the community must be immunized** to prevent an outbreak of measles. When rates drop below this safe threshold, we're all at risk.

District 28 (A,B)

2022-23 Statewide MMR Immunization Average

93%

Key

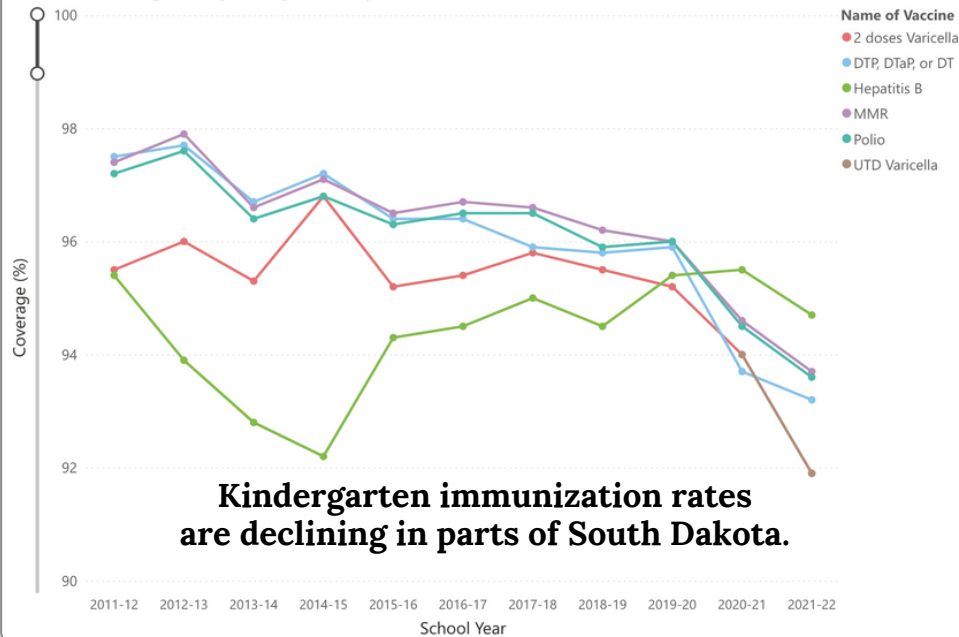

- = Protected
- = At risk for outbreak
